

ACHIEVEMENTS

- Selected as the Coordinator of the Web Development Division at Open Source NCR Community (ONC), where I lead web development activities, coordinate team projects, and contribute to technical initiatives. This role has strengthened my leadership, teamwork, communication, and project management skills while working with fellow developers.
- Selected as the Technical Lead for the Dart 2.0 Workshop at Sharda University, where I led the development of the workshop management system and provided technical support throughout the event. Coordinated with team members, managed technical operations, and ensured the successful execution of workshop activities, demonstrating leadership, problem-solving, and project management skills.
